

Classic Vista

System Requirements

Local Install

Classic Vista can be installed locally on Windows-based PCs. This option is NOT available on Mac.

COMPUTER(S)

Windows Certified PC

- Windows XP 32-bit
- Windows Vista 32-bit/64-bit (after upgrade to Classic Vista 32-bit programs)
- Windows 7 32-bit/64-bit (after upgrade to Classic Vista 32-bit programs)

NETWORK

Ethernet

- 10/100 or 10/1000
 - Wireless **NOT** recommended

PRINTERS

- PCL 5, PCL 6, or Post Script compliant printers
 - Host-based printers **NOT** supported
 - Wireless printers **NOT** recommended

Note: MICR Toner is required for Location Check Printing (P/R) and AP MICR Checks.

RECOMMENDED SOFTWARE

PDF Printing Software

- Local installations of Classic Vista do not include a PDF printer. If you need reports to be in PDF format, you will require additional PDF Printing software.

Classic Vista System Requirements

On Vista Exchange (Hosted/Citrix)

COMPUTER(S)

Note: MICR Toner is required for Location Check Printing (P/R) and AP MICR Checks.

Please check the [Citrix Ready Product Catalog](#) to verify that your printer works with Citrix. This list includes the latest printers from multiple manufacturers.

- **HP** Printers are the most thoroughly tested with Citrix and therefore are highly recommended. To verify if your HP printer is compatible with Citrix, please see [HP Printers Supported In Citrix XenApp Server Environments](#).
- **Brother** offers PCL 5 drivers for several of their printers that support Citrix. If you are having difficulty printing with your Brother printer, please use the [Brother Citrix Presentation Server Homepage](#) to verify if you have the correct driver installed.
- **Lexmark** offers a Citrix friendly Universal Print Driver for several printer models. If you are having trouble printing, please see [Lexmark's Universal Print Driver](#) webpage for more information on using the UPD.
